

Region 10 Technical High School

September 6, 2021

Dear Students, Staff, Parents/Guardians, and Community Members,

We were contacted late yesterday about a student at Region 10 testing positive for COVID. Contact tracing is being conducted with the sending district, and this is the first known case at our school this year.

Please remember to follow our health protocols by screening how you're feeling each day, wearing a mask indoors and on the bus, and attempting to keep your distance from one another. It is imperative that we work together to keep each other well.

Sincerely,

Paul K. Perzanoski
Superintendent/Director
