

# Region 10 Technical High School

November 5, 2021

Dear Region 10 Students, Staff, Parents/Guardians and Community,

We have had three new positive cases of covid-19 over the past week. Contact tracing has been done and is continuing until it is complete.

Please make sure you continue to wear your masks inside the building and on public transportation, wash your hands, self-monitor your current health and stay home if you are sick. It is extremely important not to let our guard down despite the high vaccination rates.

Thank you for your anticipated cooperation. Together we can make sure our school stays open with its current schedule.

Sincerely,

Paul K. Perzanoski  
Superintendent/Director
