

# Region 10 Technical High School

March 3, 2022

Dear Region 10 Students, Parents/Guardians and Community Members,

Please be advised that with the action of the Governor yesterday to drop the recommendation of wearing masks in schools starting March 9, 2022 and the action of our sending districts, wearing masks will be optional at Region 10 Technical High School. This action is contingent on the continued decrease in infection rates.

Since the wearing of masks is optional starting March 9, 2022 we will continue to provide them for those folks that want to wear them, and we will maintain our sanitizer dispensers at building entrances.

Thank you for your patience during this long, and difficult period and let's hope that what we have learned will keep us safe going forward.

Sincerely,

Paul K. Perzanoski  
Superintendent/Director
